https://github.com/keYa2508

Summary

Full Stack Developer with 3+ years of experience in developing responsive web and cross-platform mobile applications using React.js, React Native, JavaScript, TypeScript, and Next.js. Experienced in building enterprise ERP systems, marketing automation platforms, Indian stock trading applications, cryptocurrency trading platforms, and school management solutions. Skilled in REST API integration, Redux Toolkit, state management, Socket.IO, real-time data communication, third-party API integrations, and application performance optimization. Familiar with backend technologies, databases, and AI-powered applications using Retrieval-Augmented Generation (RAG). Focused on building scalable, maintainable, and user-friendly software solutions.

Skills

Frontend Development

React.js, React Native, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive UI Development

Mobile Application Development

React Native, React Navigation, Code Push, Push notification, Firebase, Turbo modules, Native bridging

Backend Development

Node.js, Express.js, Nest.js, RESTful API Integration

Database

MongoDB, SQL, PostgreSQL

Real-Time Communication

Socket.IO, WebSocket, Event Bus

API & Third-Party Integrations

Axios, Redux Thunk, REST APIs, WhatsApp Business API, Instagram Graph API, Meta Ads API, Zoom Integration, Gmail Integration, Razorpay integration, Exotel integration, Firebase API, Websocket, Redis

Tools & Platforms

Git, GitHub, Sentry, Webengage, VS code, Antigravity, Clode code base, codex, Android Studio, XCode

Core Competencies

Reusable Component Development, Performance Optimization, State Management, API Integration, Real-Time Data Handling, Responsive Design, Cross-Platform Mobile Development, Application Debugging

Projects

Trading Application

Developed a cross-platform cryptocurrency trading application using React Native. Integrated REST APIs and Socket.IO for real-time market data, implemented Redux Thunk and Context API for state management, and developed reusable components, white-label configurations, and customizable themes to improve application performance and user experience.

ERP & Marketing Automation System

Developed web and mobile applications for an ERP and Marketing Automation System using React.js, React Native, and ASP.NET. Implemented lead management, live location tracking, call recording, automated notifications, PDF/Excel reports, AI-powered calling, and third-party integrations including WhatsApp Business API, Instagram Graph API, and Meta Ads.

School Management System

Developed a React Native-based School Management Application with features for student attendance, examinations, digital books, and educational posters. Integrated REST APIs using Axios, implemented centralized state management with Redux, and used WebView and React Native FS for displaying and downloading digital learning materials.

AI-Powered RAG Chatbot

Designed an AI-powered Retrieval-Augmented Generation (RAG) chatbot to answer user queries using document-based knowledge. Worked on document processing, text chunking, embeddings, semantic search, vector retrieval, and LLM-based response generation using Python and FastAPI with a React.js frontend.

Experience

FRONTEND DEVELOPER · CHENNAI, INDIA

Iouring Private limited

Mar 2026 – Sep 2026

Developed responsive web and mobile application interfaces for an Indian stock trading platform using React.js and React Native. Worked on trading-related features, REST API integration, state management, real-time data handling, and reusable UI components to deliver a smooth and user-friendly trading experience.

FULL STACK DEVELOPER · CHENNAI, INDIA

Micromen Software Solutions Private Limited

Aug 2024 – Feb 2026

Built web and mobile features for an ERP and marketing management platform using React.js and React Native. Implemented live location tracking, an in-app dialer, call recording and voice-enabled search. Integrated Facebook Ads, Instagram Graph API and WhatsApp Business API for lead capture and customer engagement. Worked on two-way email communication, automated reminders, push notifications and Zoom meeting integration. Developed PDF and Excel report export features and integrated ASP.NET backend services.

MOBILE APP DEVELOPER · CHENNAI, INDIA

Pibase Solutions Private Limited

Nov 2023 – Jul 2024

Developed cryptocurrency trading application features using React Native. Integrated REST APIs and managed asynchronous state using Redux Thunk. Used Socket.IO and Mitt Event Bus for real-time updates and socket-stream communication. Implemented application flavors, white-labeling, reusable components and performance optimizations. Managed network connectivity and shared application state using Context API.

REACT & REACT NATIVE INTERN · CHENNAI, INDIA

KPOST Software Private Limited

Jul 2023 – Oct 2023

Contributed to the development of web and mobile applications using React.js and React Native. Worked on reusable UI components, REST API integration, frontend functionality, and application debugging while gaining practical experience in JavaScript and modern frontend development.

FIELD ENGINEER · CHENNAI, INDIA

Tata Communications

Sep 2022 – Jun 2023

Worked as a Network Field Engineer in the ISP team, handling network installation, configuration, troubleshooting, and maintenance. Assisted with network connectivity issues, hardware support, and ensuring reliable internet services for customers.
